COVID-19 Dashboard

7/1/2021 COVID-19 Activity Report

Cases posted below reflect results from individuals who have been working, living or studying on campus. Gannon University does not release specific information about individuals who have tested positive, but it will continue to report the number of positive cases among those who are on our Erie or Ruskin campuses. The university will update this list in a timely manner as information becomes available and is verified.

A case that is being actively traced means our contact tracers are researching if and how many "close contacts" a particular positive case might involve. Isolation refers to the COVID-positive individual. Quarantine reflects the number of "close contacts" with whom a COVID-positive person spent more than 15 minutes less than 6 feet apart. As per the university's protocols, the appropriate county Department of Health is notified of every positive case.

Current Status at Gannon

Cases Being Actively Traced

Erie	Ruskin
0	0

Isolation (COVID-Positive)

Erie	Ruskin
0	0

Commuter: 0 Erie
On-Campus: 0 Erie
Off-Campus: 0 Erie
Employee: 0 Erie

Total Vaccines Delivered

Numbers are based on vaccinations delivered on our campuses and on students, faculty and staff who self-reported vaccinations obtained elsewhere.

As you receive your completed COVID-19 vaccination series, please remember to share this information with our Health & Counseling Center to include in your records. Upload an image of your vaccination record at: update.gannon.edu/vaccinecard.
