LiveSafe screening positive or temp at or above 99.4?

**YES**
- Emergent?
  - (Shortness of Breath, Chest Pains, No fluids > 6 hours)
    - Call 911 or get ride to ER
    - If possible, notify Gannon Health Center.
    - Notify faculty or supervisor as applicable.
    - If hospital cleared to return to class, work or clinical, provide document to Gannon Health Center, faculty and / or clinical site.

**NO**
- Call or Email Gannon Health Center (814-871-7622) hlthcoun@gannon.edu

Business hours: Wait for Gannon Health Center to answer/call back & stay off campus public areas until triaged by Gannon Health

After hours: wait for Gannon Health Center triage

Go home and notify those who need to know you won’t be present (supervisor, faculty, clinical site, coach as applicable)

Gannon Health Center returns your call to determine next steps

Gannon Health Center clears you for the day

Worsening symptoms?
- If stable, go to Urgent Care. If emergent, call 911 or get ride to ER

**NO**
- Gannon Health Center tells you to come in for an appointment

**YES**
- Needs Covid-19 testing. Gannon Health Center coordinates testing
- You’re sick with something other than COVID. Gannon Health Center provides a treatment plan.
- Gannon Health Center determines if student might need to move to isolation or can isolate in place. Health Center calls the RD-on-call if a move is needed.
- Student, if directed to move, is to pack a bag (two weeks’ worth of belongings) and meet the RD-on-call as instructed.
- Self-isolate until you receive your test results. See Flow Chart B for more information.

If cleared to return to class, work or clinical, provide document to Gannon Health Center, Faculty and / or clinical site
