Notify Gannon Health Center and move to isolation if not already there.
Gannon Health Center calls the RD-on-call to inform them that a student might need to move to isolation.
Student, if directed, is to go home, pack a bag (two weeks’ worth of belongings) and meet the RD-on-call as instructed.

Notify faculty, reslife@gannon.edu, commuter life, supervisors, coach, clinical site as applicable

Gannon Health Center starts collecting basic contact tracing information and forward to DOH

Gannon Health Center monitors symptoms regularly until qualifies for release from isolation.

Are you symptomatic?

NO

Isolate until at least 24 hours have passed as symptom free (*) AND at least 10 days have passed since symptoms first appeared.

*Recovery defined as: no fever without the use of fever reducing medications AND improvement in respiratory symptoms (cough, shortness of breath)

YES

Gannon Health Center must approve return to campus

Gannon Health Center starts collecting basic contact tracing information and forward to DOH

Isolate at home per DOH and CDC isolation guidelines

If cleared to return to work provide document to Gannon Health Center and your direct supervisor

Notify the Gannon Health Center and return to daily activities

COVID-19 Test?
